Subject: Docket EPA-HQ-OPPT-2019-0501

Amparo

We anticipate the need for a fast turn-around posting to the subject docket this week. This docket is for the April TSCA SACC meeting on OPPT's draft risk evaluation for Asbestos. The posting should be similar to other SACC meetings in terms of number of documents and page count.

I just received notice that the Federal Register is ready for signature (FRL 10006-93). I believe they were requesting publication on Thursday.

We'll try to begin getting documents today so we can load them into FDMS to start your review.

Sorry for the short notice. I've been very focused on this week's all-virtual meeting of the SACC (which begins at 10:00 today).

Please let me know if you have any questions.

Thanks.

Steve
